In this paper during the past month thirteen separate pieces of farm property in Bulloch county were advertised for sale under deeds to secure debt. Never before, perhaps, in the history of the county has there been so great a number advertised for sale. Some of these debts were arranged before the day of sale and the sale was stopped, while a number of them went to sale and were bought in by those holding the papers over them.

People who loan money do not, as a rule, wish to foreclose against property which is given as security. They are loaning their money for the interest which they expect from it, and would rather have that interest than the property which their papers cover. Certainly those who are permitting their property to slip from their hands in this way, are doing so because they have lost hope of its being worth to them the amount which they owe on it. They have just sight of the fact that they have never been a panic except that it was followed by a reaction.

## IT CAN'T BE DONE.

Practically every public official or candidate for office says he favors tax reduction. In the next breath, he will propose passage of one or a dozen measures requiring large appropriations of public money (taxes). It would be impossible to adopt such measures and secure a tax reduction at the same time.

Take the bonus question as an illustration. According to published figures the various states have already paid or authorized \$350,000,000 in bonuses to war veterans while at time of discharge of veterans the government paid them \$27,000,000. Making a total of \$377,000,000 in bonuses—a larger sum than the combined bonuses of Great Britain and France. Injured veterans should receive every consideration from the government regardless of expense—such compensation should not be confused with the bonus.

Secretary Mellon has laid a definite program before the country to reduce the income tax bill over \$300,000,000. However, if bonus legislation is passed this reduction cannot be made, but an increase will be necessary.

If a bonus measure is passed, the ex-soldiers who are now becoming business men would, through increased taxation, have to pay a large percentage of the bonus they receive.

The candidate who cries tax reduction in one breath and then advocates various burdensome obligations in the next breath is simply fooling the people.

## WHY NOT "OUR" GOVERNMENT.

Walter W. Head, president of the American Bankers Association, in an address before Chicago and Cook County Bankers Association said:

"We speak reverently of 'Our Country.' What do we mean? Are we thinking of the service which we owe our country, of the love which we bear for it, or are we thinking only of the protection which our country can afford us; only of the benefit which we may derive from it? Are we thinking of what we may do for our country, or of what our country may do for us?"

Much as we find reason to deplore high taxes, to lament the interference of government in business, to condemn radicalism, our duty to ourselves and our country requires positive as well as negative action; dynamic direction rather than static obstruction. We must be constructive.

As business men go before congress or the state law-making body—with justification—opposing this bill or favoring that; as business men, we decry the acts of 'politicians' who are elected to office or who procure the election of others to office. Yet, as citizens, of our country, do we fulfill the obligations incumbent upon us? Do we exercise our right to vote—and when we do, do we always place intelligent, efficient and patriotic men in government ahead of every other consideration.

"We cannot delegate our responsibility in government to some one else. The managing of a watch operates through a series of wheels and cogs to move the hands on the dial. City council, legislature, congress, executive officials, carry on the government—but the managing of government is the individual citizen. The main-spring may transmit its impulse through elected or appointed officials, but the mechanism will not operate if the main-spring is removed. There is no substitution for individual interest in government and individual responsibility for government."

Thursday—Pa got a book on Statistics today and him and me has been a looking over it. We found that the sensus showed that most of the babies borned are girls, and boys came next. Got 60 and a 1/2 in joggally test. Bravo.

All this week we will have an actual demonstration of this wonderful oil stove at our store. We invite you to come. See how the patented burner vaporizes kerosene. See how wicks or wick substitutes have been abolished. See how two blue rings of clean, odorless flame are forced right against the bottom of the utensil—where the heat belongs. ## ANNOUNCEMENTS FOR SUNDAY AT METHODIST CHURCH

Local Methodists are planning to make next Sunday morning's preaching service an interesting and helpful one. Inclement weather and other conditions have interfered somewhat with church attendance here of late. However, it is hoped that more favorable conditions will obtain Sunday and a large attendance is urged.

The subject of the pastor's sermon will be "Christianity—A Religion of Life and Progress." The message will be one of considerable inspirational value to church members. A cordial invitation is extended to all citizens of the city to attend this service.

Those who have been attending church regularly in the past will want to be present Sunday. Those who have made new church-going resolutions will be there, probably. Those who have been indifferent in the matter of church attendance should certainly attend. The message and the entire service will be brief.

At the evening hour a general conference will be held. Matters concerning the church, local and general, the finances of the church, concerning the work of the church in all the various phases, and concerning the status of the various departments of the entire church organization will be studied. It is highly important that all members of the church attend this meeting.

Special music will be a feature of each of the above services. At the morning hour Mrs. Roger Holland will be at Bethlehem cemetery. The female quartet will sing at the evening hour.

## MELLON REPUBLICAN THEORIES CONFLICT

TWO DIFFERENT KINDS OF ADMINISTRATION PROPAGANDA IS BEING SPREAD.

Washington, Jan. 15.—The chief features of the Mellon tax plan in controversy is the reduction of the higher surtax rate from 60 per cent for the alleged reason that it will release capital, which is alleged to be tied up, for investment in industry. The following comment on some phases of that feature expresses the views of the democratic minority in congress, as well as many republicans.

If those who support the Mellon theory of internal taxation ever expect to make substantial headway, they must first readjust themselves and adopt a far more consistent and sound line of reasoning and of fact than have thus far been offered. A brief resume of the course of those supporting the Mellon idea since 1918, which has done most of the old or special interest group of republican national leaders who thus far have dominated their party, and the government when under republican control, reveals constant shifting and hedging in utter disregard of the fundamentals either of taxation or of business. If their varying views as put out to the country during the past five years had been offered by any other group, it would have been accused of bad faith.

The Mellon propagandists just now are offering as their stock phrase the idea that surtax must be cut in half in order to permit capital to enter industry and produce prosperity. This same group during 1919, when internal taxes embraced higher surtax rates than at present and an excess profits tax in addition, were an entirely different opinion about the present. They then directed their republican congress to announce that these high tax rates would not be touched for two years, or until 1921. Under their then theory, capital was not impeded in its constant flow into industry. The Mellon propagandists today are directly at odds with the views and attitude of the same identical group during 1919 and 1920. They were either in bad faith then or the Mellon propagandists are not entirely frank with the country now.

The whole truth is that the entire question of income taxes, including income tax rates, could be worked out in strict fairness and justice to every class of persons and of business if those who seek to unload some of the burden of taxation belonging to them upon others would join in the proper spirit in the work of simplifying, expediting and thoroughly improving the administration of the income tax law by the treasury department, which would result in wiping out three-fourths of the present objections and complaints, and would then join in ironing out the law so as to stop large holes where many taxpayers measurably escape, and equalizing the amount of taxes imposed upon profits from individuals, partnerships and corporations. The rates would then be adjusted upon the advice of sound, economic tax experts entirely disinterested to rival contestants of antagonistic groups of taxpayers.

It is understood that no allegation will be made that an income tax could not or could be made under the present constitution of Georgia, but it will be alleged that the gasoline tax not being a regulatory license fee nor an occupation tax, and being a tax levied upon the incomes of one class of business, is not in conformity with the constitution of the state which requires that all taxes when levied on specified subjects of taxation shall be uniform and ad valorem.

State officials today figuring on what is involved to the state in the pending and possible litigation over these two laws arrive at the conclusion that at least a million dollars to the counties of the state, a million dollars to the highway department and about the same figure to the state treasury to offset the W. & A. rentals is involved in the gasoline tax, each year; and at least three million of dollars a year to the pensioners and the state board of health in the same case. The loss of either or both of these laws, is believed in official circles, will sorely cripple the state financially.

## SIMPLIFIED FORM FOR INCOME REPORT

COLLECTOR ROSE URGES THOSE SUBJECT TO TAX TO MAKE EARLY REPORT.

The following statement is issued by J. T. Rose, collector of internal revenue of the district of Georgia:

Let one of your New Year resolutions be to file your income tax return early. Forms for filing individual, corporation, partnership, personal service corporation, information, fiduciary and other returns required by the revenue act are now available at the office of collector of internal revenue, Atlanta, and the branch offices at Macon and Savannah.

The filing period is from January 1st to March 15th.

Inaugurating the most progressive and important step it has taken since the institution of the income tax laws, the Internal Revenue Bureau, through months of research work, has developed a simplified income tax form which Collector Rose declared would make it as easy for the salaried or wage-earning taxpayer to prepare his return for the coming filing period as it would be for him to fill in a request for a postal money order, or to make out an application for employment such as is required by the average commercial concern.

Reduced from six pages to a single sheet on which answers are required to only three questions in relation to income, form 1040-A has been revised in the interests of the great majority of taxpayers. The number of persons affected by the adoption of the simplified form is shown by the fact that of 6,662,176 personal returns filed for the calendar year 1921, 6,136,570 were returned on form 1040-A. Of personal income amounting to \$13,215,434,311 reported on 1040-A forms, \$10,981,649,359 was derived from salaries and wages.

It is estimated that more than 4,000,000 persons in the United States will use form 1040-A in reporting income for the calendar year 1923. Out of a total of approximately 75,000 who will file returns in the district of Georgia, more than 40,000, it is estimated, will use the new form.

Persons who use form 1040-A will find the problem of correctly making out an income tax return reduced to a minimum. The difficulties of the audit also will be greatly lessened, thereby expediting the work of the Bureau of Internal Revenue, and reducing the cost of operating expense.

The new form 1040-A will be used exclusively by taxpayers whose individual income is \$5,000 or less, coming principally from salaries and wages, and was designed to meet the almost universal criticism that the income tax blanks were so complicated that it required the services of a lawyer or an expert accountant to fill out one.

Form 1040 is to be used by persons, any part of whose income for the year 1923 was derived from business or profession, farming, sale of property, or rents, regardless of the amount, and in all cases where the net income was in excess of \$5,000, whether from salary, wages, business, profession or other taxable sources.

Formerly form 1040 was used only where the net income exceeded \$5,000. The taxpayer will receive both forms for the reason that it is not possible to determine at this time which form is desired by individuals.

Failure to receive a form does not relieve the taxpayer of his obligation to file his return and pay the tax on time. A copy of the form desired may be obtained on request, written or oral, at the office of Collector Rose or any of the branch offices.

In view of the fact that it is not possible to determine, at this time, the class of return which will be required by 1040-A taxpayers whose names now appear on the lists of this district, I have decided to mail both blank forms 1040-A and 1040 to all 1040-A taxpayers, and the taxpayer can then select the proper form on which to make his return.

**AD CLUB DINNER.**

The weekly meeting of the Statesboro Ad Club will be held Friday (tomorrow) evening at the Jaekel Hotel. Important business is to come before the club. If you intend to be present, call the secretary and notify him to have a dinner for you.

**SEE POSSIBLE ATTACK ON 3-CENT TAX ON GASOLINE**

Atlanta, Jan. 14.—Information has been given to certain state officials that plans are making for an attack in the courts upon the 3-cent gasoline tax, in event of a decision in Fulton superior court adverse to the revenue stamp law, which is now being heard before Judge G. L. Bell.

It is understood the attack on the gasoline tax, if made, will be based on different grounds from that set up in the case now in progress, and the contention will be made that the gasoline tax is violative of the constitution in that it is not ad valorem, that it is not uniform, that it is not an occupation tax or business license fee, but is a direct tax upon incomes of only one class of citizens and business enterprises and, therefore, is violative of the constitution.

It is understood that no allegation will be made that an income tax could not or could be made under the present constitution of Georgia, but it will be alleged that the gasoline tax not being a regulatory license fee nor an occupation tax, and being a tax levied upon the incomes of one class of business, is not in conformity with the constitution of the state which requires that all taxes when levied on specified subjects of taxation shall be uniform and ad valorem.

State officials today figuring on what is involved to the state in the pending and possible litigation over these two laws arrive at the conclusion that at least a million dollars to the counties of the state, a million dollars to the highway department and about the same figure to the state treasury to offset the W. & A. rentals is involved in the gasoline tax, each year; and at least three million of dollars a year to the pensioners and the state board of health in the same case. The loss of either or both of these laws, is believed in official circles, will sorely cripple the state financially.

**POTATO PLANTS MUST HAVE CAREFUL ATTENTION**

The State Board of Entomology is issuing notice to prospective shippers and growers of sweet potato plants that the law requires treatment of the tubers before they are bedded.

The formal announcement issued by the board is as follows:

"If you expect to ship, sell or give away sweet potato plants next spring it will be necessary for your tubers to be inspected before bedding."

"All potatoes must be dipped in a corrosive sublimate (bi-chloride) solution at the strength of 1 to 1,000 before bedding. This treatment costs very little, does not injure the potato and at the same time insures you against several sweet potato diseases. No certificate tags will be issued next spring unless the tubers have been treated before bedding."

"All requests for inspection should be mailed to this office immediately. If requests are received after February 1st, it may be necessary for the

## CAN SEE NO EXCUSE FOR KU KLUX KLAN

SENATOR RTED WRITES HARRY A. BUBB IN REPLY TO APPRO.

Washington, D. C., Jan. 7.—Assertion that he failed to "see any excuse for the existence of the Ku Klux Klan" was made by Senator Reed, Republican, of Pennsylvania, in a letter today to Harry A. Bubb, of Monroe, La., who wrote the Senator expressing opposition to any inclusion of an "anti-Ku Klux Klan" plank in the Republican party's national platform.

"You letter of Jan. 2 falls on stony ground," the Senator said. "I fail to see any excuse for the existence of the Ku Klux Klan. I don't see why its campaign against bootlegging and immorality, to which you refer, could not be better conducted if the same individuals would lend their influence to strengthen the established government."

"I see no excuse for the use of masks and other disguise by men who profess to be acting on proper motives. I see no excuse for a revival in the country of race prejudice and religious prejudice."

"I cannot understand why men of intelligence like yourself, with a record of patriotic service, become members of this society. In the World War you did not wear a disguise when you were fighting for what you thought was right and you fought alongside Jews and Catholics and negroes and you found them as patriotic as yourself."

**AD CLUB PLANS TO HOLD BIG MEETING**

At a date early in February, it is decided upon definitely at the next meeting, the Statesboro Advertising Club will hold another farmer's meeting of the nature of that one held early last spring. This meeting will not be confused with the educational matter of interest to those of the proposed conversion of the Agricultural School into a junior college, which is to be held on Friday evening of next week. The educational meeting is to be attended by members of the Ad Club, and invited guests will include the lawmakers of the First Congressional district, the members of the newspaper fraternity of the district, and educational workers of the state.

The farmer's meeting to be held in February, will be similar to that held last spring, when the members of the club extended to eighty odd leading farmers and business men throughout the county and a discussion of farm conditions was entered into. At the coming meeting it is proposed to have present some skilled advisers to talk upon matters of interest to those engaged in agriculture. This meeting was the last, will be held at the Agricultural School.

**CREAMERY OUTPUT SHOWS INCREASE OVER LAST YEAR**

Manager J. A. Bunc, of the local creamery, is highly elated over the constantly increasing business of that industry, the weekly output of which shows big gain over last year.

For the week closing Saturday, which included the two days of the severest cold weather of the winter, the output was in excess of 1,300 pounds. For the preceding week more than 1,500 pounds of butter was made.

A little calculating in this subject discloses some things of interest. It takes about three pounds of cream to yield one pound of butterfat. Seven pounds of milk will produce one pound of cream. Thus it will be seen that each pound of butter represents about 21 pounds of milk. A gallon of milk weighs 8 pounds, therefore it takes slightly over 2 1/2 gallons of milk to produce a pound of butter.

Every farmer, then, ought to be able to understand that his cow that yields 2 1/2 gallons of milk daily is producing about one pound of butterfat. At the present prices, this is worth approximately 60 cents.

Manager Bunc is finding a broader market almost daily for his output.

## COW COMES IN WITH SPRINGS TO HER TAIL

An unusual case which occupied the time of the court for half a day Monday was one wherein two men were charged with cruelty to animals.

The accused were Dan Brannon and Sylvester Young, living near Prentiss, and the accused was Eli Kennedy, a neighbor.

The specific act of cruelty consisted in attaching a set of bed springs to the tail of a milk cow and sending her home.

According to the evidence, the cow had jumped into the field where the men were at work. Chasing her out, they caught her as she was about to get over the fence. One man held her while the other attached the old set of bed springs to her tail. She was then released and sent on her homeward way. She dragged the springs through the woods and up and down hill for nearly a mile to her owner's home.

Evidence was also adduced to the effect that she had been dogged and otherwise mistreated. The jury acquitted the accused men.

**R. H. CHANCE TO FACE MURDER CHARGE AGAIN**

R. H. Chance will again face trial on a charge of murder, the fourth time for him to face a jury for the killing of Watson Allen.

Three times Chance has been convicted and given a life sentence, and as many times grounds have been found for setting aside the verdict and granting a new trial. This last new trial is granted upon the grounds of relationship of two jurors to persons who contributed to the fund for the prosecution of the case. Those two disqualified jurors were E. S. Hobbs and L. L. Clifton. A small fund was raised in Jenkins county to assist in employing counsel for the prosecution of Chance. It was discovered after the trial was ended that the two men named above were related to persons who contributed to the fund.

The crime for which Chance was convicted was committed in Jenkins county two years ago last December. He was tried in Jenkins county following spring, convicted and given a life sentence. A new trial was granted and the case was transferred to Bulloch county. Twice he has been convicted by Bulloch county jurors and as many times found grounds upon which to win a new trial.

The fourth trial will come up at the term of superior court which convenes on the fourth Monday in the present month.

**SENATOR HARRIS HAS BILL AGAINST IMMIGRATION**

Atlanta, Jan. 15.—A resolution to stop all immigration for five years, which has been introduced in the national senate by United States Senator Wm. J. Harris of Georgia, is generally endorsed by many business interests in Atlanta. It is understood that Senator Harris will press his measure for consideration by the senate immigration committee, of which he is a member.
